

Strongest Roll-up Shutter in the industry!

***** 83.2 PSF @ 19' FEET *****

NO Storm bar required! Designed and built to last! Provides hurricane protection, insulation, sun protection, security and rain protection!

Patent pending!

**FLORIDA
BLINDS & SHUTTERS
INC.**

Unique design!
Our custom designed *Crown and Drive* slides inside the custom tube and locks itself. No additional fastener required. Literally maintenance free!

Roll slats are directly attached to the tube, reducing deflection for smooth operation

Double ball bearing roller guide on each side...

Idler Completely sealed double ball bearing

Manual override

Holes made by CNC

Rail cover
